

“WHO’S DOING WHAT?”

RAY DIVELY - GULF I turned 98 on April 7th, in July will be married 78 years to the same beautiful woman. The activities I wrote about before are past history. I am a victim of Macular Degeneration and am blind in one eye and have limited vision in the other one. Family members make it possible for my wife and I to remain in the same home her father and I built 65 years ago and where we hope to end our days. We hope all CRA members are doing well and we pray GOD will bless each one of them as he has blessed us.

ROY J RICKS – UNOCAL Hi, Still hanging in here. Living by myself talking life as it comes. I was born in 1922 so I will be 102 in 2024. I hope everyone is in good health.

DONALD J DEQUEANT – UNOCAL I’ve been trying to stay healthy like everyone else and working on my home. My grandsons have been a great joy.

TOM LIONETTI – CHEVRON We are nomads traveling where weather or fancy takes us. In 2023, we visited Antarctica, Egypt, Galapagos, Canada, and Eastern United States. We went porting the St. Lawrence and slept in the Sahara with Bedouins. We spend spring in Houston to get all of our medical maintenance and body tune ups and part replacements as needed. All this may change; we finally became grandparents of twins.

JANA HENDRICKS – CHEVRON I’ve been spending a lot of time traveling or planning trips to go on. After retiring in July last year, I spent two

weeks in Alaska (my 50th state) with a good friend and fellow Chevron retiree, and followed that up with trips to Hawaii and France. For 2024 I've booked trips to Japan, Amsterdam, and Scotland that are planned for spring, summer, and fall. In January, I attended the National Figure Skating championships in Columbus, Ohio. As a long-time skating fan, it was fun to see all the events in person. Hopefully the year of travel will wrap up with another Hawaiian vacation. I really enjoy live theater (especially musicals) so have been going to the theatre a few times per month now that I have more free time. I also joined a community choir and really enjoy the people and the challenge of learning difficult music. Choir membership comes with a requirement to donate volunteer hours so I spend some time working on grant writing and marketing communications for the choir. On top of that, I try to see friends and family members as often as possible, including making visits back to my Bakersfield work location to connect with former colleagues and fellow retirees.

RUDY E TREML – CHEVRON Stopped playing golf and now sing karaoke 6 days per week. Many nights I sing at 2 places. My wife Judy also sings karaoke. I have won three karaoke contests so far.

THENUS JUDICE – TEXACO Retired 10 years, assisting in building, cleaning, remodeling our new church building that our pastor leased from a movie theater in New Iberia, LA. The Community Church it is called. I exercise, grow garden, "play" around with leather, wife and I camp in our travel trailer, visit the sick, help and give to the more needy people in our area. Share the gospel of Jesus to others. Viet Nam Veteran (U. S. Air Force) participate in VA and American legion meetings.

JOHN C FRANZ – TEXACO Still playing golf at 96, I was born 11/15/27. I enjoy playing with E. J. Fore, Jack Poskey, W.L (Pete) Martin – all former Texaco Employees. I am a WWII veteran.
